

Quality Engineer

Are you ready to be the driving force behind quality excellence? Do you thrive on keeping standards sky-high and pushing boundaries? Step into the spotlight and become our Quality Engineer at Five Star!

As the guardian of our Quality Management System (QMS), you'll be the architect of excellence, crafting policies and procedures that don't just meet industry standards but redefine them. Dive headfirst into the data universe, extracting valuable insights from audits, customer feedback, and surveys to navigate our path toward unparalleled perfection.

Responsibilities:

- Executes and organizes activities related to Internal Audits, customer audits, and 3rd party audits.
- Supports and ensures the Customer Complaint, Corrective Action, and Preventative Action programs are followed according to the Quality system.
- Supports the disposition activities of non-conforming products according to the Quality System.
- Develops and administers quality system training for all employees.
- Provides training related to the QMS.
- Supports new certification initiatives (IATF 16949:2016).
- Supports the Supplier Quality Program
- Establishes and maintains relationships with customers to address issues concerning quality system.
- Assists with product development and its impact on the QMS.
- Assesses regulatory compliance activities.
- Develops material for and participates in Management Review Meetings.

Qualifications:

- 2-year degree with 3 years of experience in quality systems or 5 years' experience in a quality systems/quality engineering role is preferred.
- ISO 9001 certification is required.
- IATF certification preferred.
- Experience with problem solving tools (8D, 5 Why's, Ishikawa, etc.) required.
- Automotive experience a plus.
- Experience of core tools (SPC, MSA, CPL, FMEA, APQP, PPAP) preferred.
- Data analysis a requirement.
- Experience with lean manufacturing preferred.

Core Values: Innovative, Winning Mindset, Loyal & Dedicated, Customer Focused, High Standards
