

Mechanical Technician

We are seeking a skilled mechanical technician to assist our engineering team. You will be updating service and repair records, maintaining our machinery, and running diagnostic tests on machinery and equipment to ensure optimal performance.

To ensure success as a mechanical technician, you should exhibit solid knowledge of mechanical performance standards and experience in a similar field of specialization. A top-notch mechanical technician will be someone whose mechanical expertise translates into optimized machinery and equipment performance.

Mechanical Technician Responsibilities:

- Assisting the mechanical engineer with mechanical design and maintenance tasks.
- Installing and performing diagnostic tests on mechanical systems.
- Developing and implementing mechanical maintenance plans to prevent costly equipment breakdowns.
- Troubleshooting mechanical malfunctions and breakdowns, as well as performing repairs.
- Documenting processes and maintaining mechanical service records.
- Monitoring the availability of parts and replenishing supplies.
- Optimizing mechanical efficiency by adjusting machinery and equipment settings.
- Training co-workers on the safe and efficient use of mechanical machinery and equipment.
- Maintaining a tidy work environment and adhering to industry regulations.

Mechanical Technician Requirements:

- High School Diploma or GED required; Associate degree in electrical, mechanical, or maintenance engineering technology preferred.
- 1 year of light industrial maintenance, such as fabrication and/or residential/commercial/electrical experience preferred. Related military technical experience in electrical and/or mechanical trades will be considered equivalent to preferred light industrial experience.
- Software skills, including the use of Microsoft Word and Excel software and web-based applications.
- Ability to follow detailed instructions to complete routine procedures and/or operate standard equipment.
- Good mechanical aptitude to complete assigned projects.

- Verbal and written communication skills necessary to communicate with immediate management.
- Time management, organizational, and multi-tasking skills necessary to work in a fast-paced environment, handling various tasks and changing priorities, while maintaining high attention to detail and accuracy to achieve daily assignments and goals
