FIVE STAR PLASTIC PRIMER

A MUST-USE FOR PAINTING ANY FIVE STAR PLASTIC PANEL

- » Specially-formulated for the plastic used on Five Star parts
- » (2) cans = (2) coats on: Nose, Bumper Cover, Fenders, Quarter Panels and Rocker Panels

FIVE STAR QUICK TIP:

IF YOU ARE GOING TO PAINT YOUR PLASTIC PANELS, YOU MUST USE FIVE STAR PLASTIC PRIMER, AND NO OTHER

- » There are plenty of primers on the market but the plastic used in our parts is not the same plastic as used elsewhere in the automotive industry.

USING ANY OTHER PRIMER WILL RESULT IN SEVERE PAINT FLAKING

- » Before you paint, be sure you have your Five Star Primer. Follow the directions on the can precisely and marvel at your perfect paint job.
