

2026 CATALOG

BUILT FOR THOSE WHO PUSH LIMITS

48 YEARS^{OF} RACING HISTORY

YESTERDAY, TODAY & TOMORROW...ALWAYS THE BEST!

Five Star Race Car Bodies, a division of Five Star Fabricating, Inc., was established in the late 1970s by Carl Schultz & Fran Prestay. The company began as a side job for them in response for a need for innovative sheet metal products in the stock car racing industry. From their '79 Camaro body, the product line quickly diversified to include durable thermoformed molded plastics; lightweight fiberglass; and advanced composite race car body components. Through ongoing development we perfected the art of formed windows. Our engineers devised improvements in material composition and coatings, which also led to the development of our own superior line of polycarbonate. Our racing windows are now #1 in all motorsports. As we continue to diversify into new markets, we remain dedicated to maintaining our deep roots in auto racing, by putting our experience and expertise to work for you by providing a complete line of the greatest racing products for years to come.

HEADQUARTERS

Our clean and modern 6 building campus spans over 300,000 sq feet of floorspace and is built on 44 acres in beautiful Twin Lakes, WI. This ever evolving facility features elite production equipment & manufacturing processes to achieve the highest standards.

'79 CAMARO

Carl and Fran's first production of the 1979 Camaro. Word of mouth and later a small ad in Stock Car Racing Magazine led to a tremendous response from racers across the country.

ISO CERTIFIED

Celebrating our 13th year of ISO 9001:2015 Certification. We are proud of the continuous improvements that make our production processes faster and more efficient while reducing waste along the way. ISO Certification is the American Standard for quality management systems. For us, it is all about delivering the highest quality products to our customers.

FAMILY OWNED & OPERATED

We are proud to be a family-owned and operated business, dedicated to quality and service. Carl, our founder, remains actively involved each day, sharing his expertise and passion. Today, his children, Corey, Garrett & Haley, along with Corey's wife Heidi, are leading the way, carrying on his legacy & commitment to excellence.

CONNECTING WITH RACERS

Every year, we showcase groundbreaking designs at the PRI Show, demonstrating our commitment to pushing the limits of performance and durability. Beyond the show, our dedicated team attends over 100 races annually, providing racers with the support & attention they need.

THE FUTURE IS HERE

After 4 decades, Five Star established itself as the leader across multiple motorsports markets. As we strive to stay on the cutting edge in products and service, we're excited to announce that in 2025 we completed our new state-of-the-art distribution facility in Concord, North Carolina. This facility will now serve as our Dealer Service Center,

ADVANCED COMPOSITES

LIGHTWEIGHT, RIGID & EXTREMELY DURABLE

WHY FIVE STAR IS BETTER!

CUSTOM ENGINEERED MATERIALS:

- » Flame retardant resins in most applications
- » Incredibly strong shear and tear resistant
- » Rigid no surface deflection at high speeds
- » Durable parts do not break apart

PRECISION WEIGHT CONTROL:

- » Parts made with the tightest weight tolerances

FLAWLESS FINISH:

- » Excellent surface finish and wrapped in a protective film

OUR PROPRIETARY FABRIC & RESIN BLENDS ARE MADE WITH A SUPERIOR MANUFACTURING PROCESS THAT MANY TRY TO EMULATE, BUT FAIL TO REPLICATE!

ENVIRONMENTALLY SOUND MANUFACTURING:

- » All parts are manufactured in our clean EPA & OSHA compliant facility

EXCELLENT SHAPE TOLERANCE FOR REPEATABLE FIT:

- » In house pattern & tool production assures great shape control

ULTRAGLASS COMPOSITES

THE HIGH-TECH ALTERNATIVE TO OTHER FIBERGLASS COMPOSITES

FIBERGLASS PANELS REDEFINED!

SUPREME SURFACE FINISH:

- » Most panels feature a black inner finish to eliminate painting
- » Superior surface finish & wrapped in a protective plastic film
- » All panels are made with a smooth inner surface
- » Excellent shape tolerance with a repeatable fit

UNMATCHED STRENGTH:

- » Unmatched impact resistance; no other composite is stronger
- » Panels that 300% further before breaking equals less debris on the race track & less time in the pits
- » No surface deflection at high speeds

WITH AN UNMATCHED PERFORMANCE, OUR EXCLUSIVE ULTRAGLASS COMPOSITE BLEND OUTPERFORMS ALL OTHER COMPOSITE PANELS ON THE MARKET!

ENVIRONMENTALLY SOUND MANUFACTURING:

- » 93% reduction in harmful emissions during the manufacturing process
- » All parts are manufactured in our clean EPA & OSHA compliant facility

PRECISION WEIGHT CONTROL:

- » Can be lighter than standard fiberglass composite panels
- » Ability to hold much tighter weight tolerances

HIGH-IMPACT PLASTICS

UNSURPASSED IMPACT RESISTANCE & DURABILITY

YOU WON'T FIND A BETTER PLASTIC!

ENGINEERED TO WITHSTAND EXTREME CONDITIONS:

- » Made with our own state of the art proprietary blend of plastic material
- » High elongation provides superior flexibility and structural integrity
- » Some plastics are fire resistant & pass industry testing standards
- » We match the plastic materials for specific applications

**THIS FEATURED PLASTIC IS USED IN THE MD3 BRAND.
THE UNDISPUTED BEST BODY PANELS IN ALL OF DIRT RACING!**

SUPERIOR SHAPE CONTROL:

- » Parts are formed using advanced computer automated thermoforming machines with temperature controlled cast aluminum tooling
- » Consistent shape tolerance allows for easy replacement
- » Shaped with even thickness & consistent part weight
- » Matched plastic materials for specific applications

EXCELLENT SHAPE TOLERANCE FOR REPEATABLE FIT:

- » In house forming assures great shape control

THE MD3 ADHESION PROMOTER WORKS BEST:

- » Our MD3 brand Adhesion Promoter is specifically engineered for the special plastic materials we use.

POLYCARBONATE WINDOWS

THE #1 CHOICE BY TOP RACERS & TEAMS WORLDWIDE

ABSOLUTE SUPERIOR OPTICS & SAFETY!

WE CAN SHAPE FORM ANY WINDOW:

- » We can meet all of your polycarbonate & acrylic needs, not just racing windows
- » We can form windows from factory glass for limited quantity orders
- » We offer in-house design & mold building for any windows you need
- » CNC pattern cutting

BETTER THAN GLASS:

- » Up to 50% weight savings compared to glass
- » Can be formed into multiple shapes or styles
- » Multiple thickness & tint options available
- » Enhances driver safety

**THE #1 LINE OF WINDOWS USED IN ALL OF MOTORSPORTS
BECAUSE OF IT'S SUPERIOR OPTIC CLARITY & UNMATCHED SAFETY!**

PRECISION FIT GUARANTEED:

- » Proprietary forming process ensures unrivaled optical clarity and accurate shape control
- » CNC routing ensures a perfect drop-in fit, every time

SUPERIOR OPTICAL CLARITY & DURABILITY:

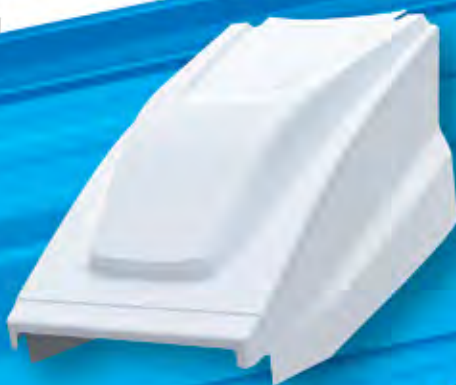

- » We use only the highest Optical Grade Polycarbonate
- » The highest abrasion, chemical and UV resistance
- » Windows printed with a durable black ink border
- » We have invested in our own custom built coating facility. Our coatings are robotically applied in an environmentally controlled, clean room system. We have the capability to apply a variety of coating technologies to meet a vast array of performance characteristics from hard coats to anti-fog properties. Our coating systems can be applied to either flat or complex shape components offering a solution for any application.

ALL NEW! **SPRINT CAR**

THE NEW STANDARD IN SPRINT CAR TECHNOLOGY

Hood

Nose & Lower Nose Cap

Left Sail Panel
& Right Arm Guard

Dash Panel

- » The finest materials. The strongest design. The ultimate performance.
- » Lightweight, aerodynamic & durable construction
- » Universal fit for every leading chassis

ENGINEERED FOR CHAMPIONS

FOR DETAILED ORDERING INFORMATION GO TO PAGES 70-75

ALL NEW!
TA2 CAMRY
DURABLE, AERODYNAMIC & RACE-PROVEN

Nose with Graphic Kit

Rear Bumper Cover with Graphic Kit

2-Piece Left Door

Left Rear Quarter

- » Tremendous sheer resistance to withstand impact & prevent debris
- » Flange-fit panels fit flush with no exposed fasteners
- » Repeatable fit for a fast & easy replacement

ENGINEERED BY FIVE STAR & TRD
FOR DETAILED ORDERING INFORMATION GO TO PAGES 112-113

ALL NEW!
'69 CAMARO PRO MOD
IF YOU'RE LINED UP AGAINST IT, YOU'RE ALREADY BEHIND!

Complete Front Clip in Ready-To-Paint Gray Finish

Complete Rear Clip in Ready-To-Paint Gray Finish

- » Tear-drop shaped for improved aerodynamic efficiency
- » Advanced composite construction for lightweight durability
- » CFD-backed for superior downforce

TRADITION MEETS INNOVATION

FOR DETAILED ORDERING INFORMATION GO TO PAGES 130-133

ALL NEW! **COWL INDUCTION**

NEW & IMPROVED CLOVERLEAF DESIGN

- » Optimized airflow with new and improved cloverleaf design
- » Lightweight construction with premium black resin finish
- » All new prepreg carbon fiber option

COLD AIR BOXES

REDESIGNED TO MAXIMIZE HORSEPOWER & PERFORMANCE

FOR DETAILED ORDERING INFORMATION GO TO PAGE 168

ALL NEW! NEXTGEN LATE MODEL CAR COVER

PROTECTION WITHOUT COMPROMISE
FOR DETAILED ORDERING INFORMATION GO TO PAGE 44

- » Zipper access to cockpit, nose screen, exhaust, deck lid, & engine without removing the cover
- » Engine can run safely with the cover on when proper access points are open
- » Waterproof material shields against rain, dust, and debris
- » Soft inner liner protects body panels and graphics from scratches
- » Elastic hem hugs the car's body for a secure fit

- » Advanced composite roof with flame-retardant resin for added safety
- » Strong construction holds up at high speeds with minimal bracing
- » Lightweight, durable design for consistent performance

NASCAR MODIFIED ROOF

LIGHTWEIGHT STRENGTH & BUILT FOR SPEED
FOR DETAILED ORDERING INFORMATION GO TO PAGE 45

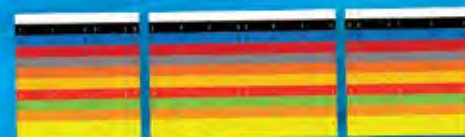

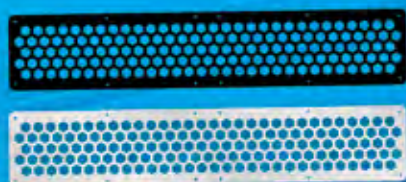

ALL NEW! NORTHEAST MODIFIED

LEFT REAR QUARTER PANEL

FOR DETAILED ORDERING INFORMATION GO TO PAGES 96-97

- » Approved for competition by all major sanctioning series
- » High-Impact plastic panels provide unmatched durability
- » Molded wheel well & flange align with aluminum door

- » Nose screens protect the radiator from dirt & debris
- » Spoilers engineered for maximum rear downforce
- » Wear strips add a clean, professional look

MD3 STOCK CAR

NOSE SCREENS, SPOILERS & WEAR STRIPS

FOR DETAILED ORDERING INFORMATION GO TO PAGES 98-103

ALL NEW! SCUFF PLATES

SECURE & PROTECT YOUR HOOD WITH CONFIDENCE
FOR DETAILED ORDERING INFORMATION GO TO PAGES 80, 93, 163

- » Raised center design for quick hood pin clip installation & removal
- » Includes 1/2" center hole and unpainted 1/8" rivets
- » Made from lightweight & durable plastic

ANGLED BODY BRACES

RESILIENT HIGH-IMPACT PLASTIC BY DESIGN
» Provides reliable body support & long-term durability
FOR DETAILED ORDERING INFORMATION GO TO PAGES 85 & 94

- » Optional polycarbonate extensions raise scoop height for air filter protection
- » Lightweight, molded high-impact plastic for peak aero performance
- » Available in multiple height and width options

HOOD SCOOPS & AIR DEFLECTORS

NOW IN BLACK

FOR DETAILED ORDERING INFORMATION GO TO PAGES 83 & 92

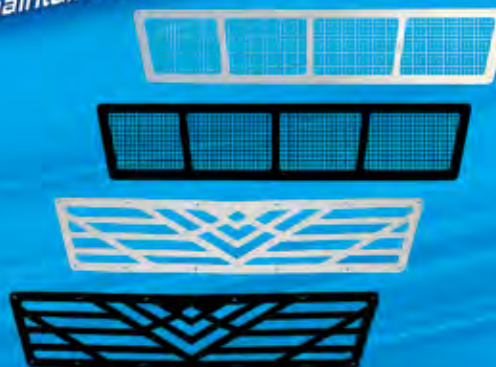

ALL NEW! CROWN VIC

GRAPHIC KIT & NOSE SCREENS

FOR DETAILED ORDERING INFORMATION GO TO PAGE 68

- » Realistic vinyl graphics with long-lasting adhesion
- » Durable finish for lasting color and protection
- » Nose screens block debris while maintaining airflow

- » Integrated vinyl graphics with long-lasting adhesion
- » Durable finish for lasting color and protection
- » Nose screens block debris while maintaining airflow

SPORT COMPACT

GRAPHIC KIT & NOSE SCREENS

FOR DETAILED ORDERING INFORMATION GO TO PAGE 69

ALL NEW!
NEXTGEN
ABC & LATE MODEL STOCK

- » Aerodynamically designed with full line of bumpers, bracing & accessories
- » Ultra-durable, high-impact plastic blend for maximum strength
- » Realistic nose and tail graphics with long-lasting adhesion

DODGE NOSE
DODGE CHARGER SCAT PACK

FOR DETAILED ORDERING INFORMATION GO TO PAGES 20 & 38

ABC NEXTGEN

THE MOST ADVANCED BODY ON THE MARKET

The ABC NextGen Body redefines high-performance engineering, combining unmatched durability with cutting-edge aerodynamics for superior results on the track. Designed for easy installation and minimal setup, this body gives racers a competitive edge without the hassle.

- » 64 1/2" wide spoiler now ABC approved for competition
- » Aero balance validated through wind tunnel and on-track testing
- » Wider greenhouse allows easier driver access and accommodates larger roll cages
- » Optional Advanced Lightweight Composite greenhouse with flame-retardant resin for improved safety
- » Additional engine clearance with more fender room for increased suspension travel
- » Two-piece greenhouse design includes integrated cowl and deck lid filler
- » Consistent panel fit with flanges and locating tabs for faster installation and replacement
- » Common body design with four nose options for brand identity
- » Available in 4 color options

FEATURED BODY ACCESSORIES

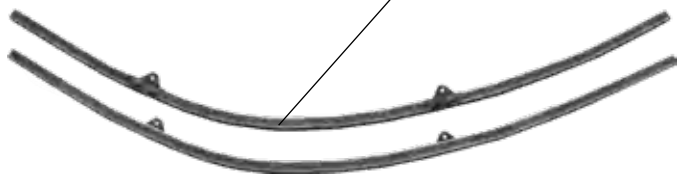

PREMIUM AVEX STYLE RIVETS:

- » Five Star Premium Rivets are known as the best quality on the market
- » Grip range up to 3/16" for 1/8" rivets & up to 1/2" for 3/16" rivets
- » Super-tight grip & won't spin out while drilling!
- » For more details & ordering info, see page 160

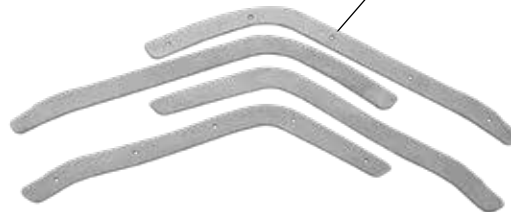

COWL INDUCTION COLD AIR BOXES:

- » 4 barrel and 2 barrel offset options available
- » Flow bench tested for peak air flow
- » For more details & ordering info, see page 168

LOWER NOSE SUPPORT BRACKET:

- » Mounts under the lower valance to maintain strength and structural integrity for the nose under high speeds
- » Choose from a lightweight aluminum or steel bracket
- » For more details & ordering info, see page 164

FENDER-TO-NOSE BACK UP PLATES:

- » 4 Piece Kit Includes: 2 Fronts & 2 Rear Plates (enough for both sides)
- » Pre-drilled holes in the necessary locations for quick & easy mounting
- » For more details & ordering info, see page 168

BODY DIMENSIONS

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

WIDTHS

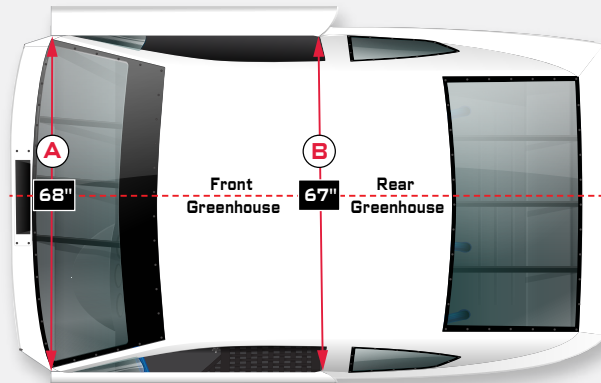

A	B	C
79½" MAX"	68"	67"
Body Width: Measured at wheel wells	Door to Door Width: Measured at A-posts & inside edge of doors, measured through car	Door to Door Width: Measured at B-posts & inside edge of doors, measured through car

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.

2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/- 1/4"

CHASSIS	ROOF HEIGHT	TREAD WIDTH	WHEELBASE
Offset/ Straight Rail	47"	66" MAX	101-106"

ORIGINAL ABC BODY

CLASSIC DESIGN, MODERN PERFORMANCE

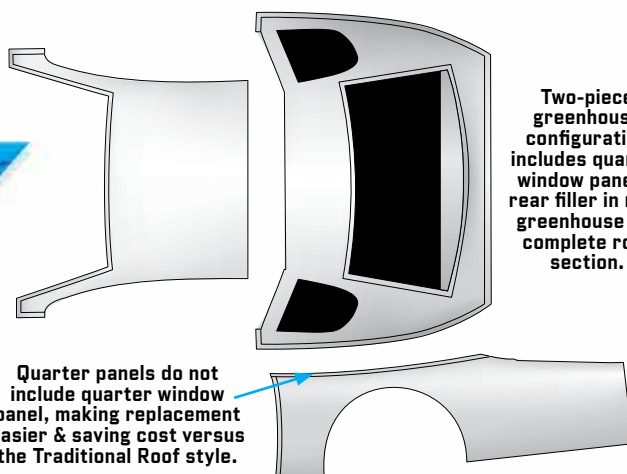

The Original ABC Body offers two roof options: the Greenhouse, built-in deck lid filler for quick installation & durable plastic quarter panels, and the Traditional design, with integrated quarter panels with a separate deck lid filler panel. Both ensure a seamless fit & enhanced performance, making it the ideal choice for any racer.

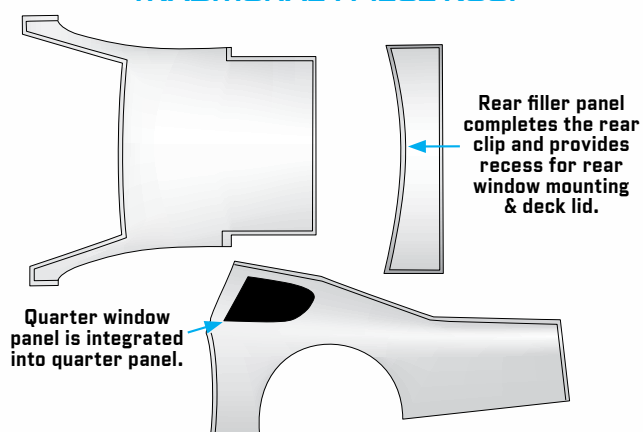

TWO-PIECE GREENHOUSE

TRADITIONAL 1-PIECE ROOF

» Common body design with four nose options for brand identity

» Available in 4 color options

ORIGINAL ABC BODY

BODY DIMENSIONS

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

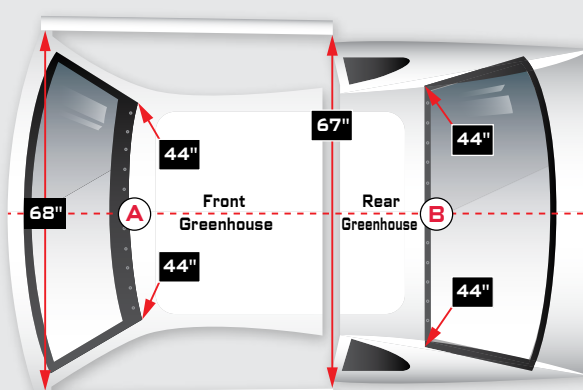

WIDTHS

TRADITIONAL ROOF

GREENHOUSE

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.
2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/-1/4"

CHASSIS	ROOF HEIGHTS	TREAD WIDTH	WHEELBASE
Offset/ Straight Rail	A 47" B 45½"	66" MAX	101-108"

» FOR INDIVIDUAL BODY PANEL DIMENSIONS, VISIT FIVESTARBODIES.COM

SURFACE PREP

FOR PLASTIC

MD3 ADHESION PROMOTER

FAST DRYING
& NON-SANDING

MD3 ADHESION PROMOTER:

- » Specifically engineered adhesion promoter assures proper paint bonding to our special plastic
- » Other automotive grade primers on the market may not work at all or cause severe paint flaking
- » Improves adhesion of vinyl by enhancing the bond between adhesive on the vinyl and the substrate, for a more durable, long-lasting application
- » Comes in an aerosol spray can for quick and easy application
- » A single can coats approximately 5 individual parts

MD3 Adhesion Promoter	842	\$16
-----------------------	-----	------

» A MUST USE PRODUCT BEFORE PAINTING OR APPLYING VINYL ON ANY FIVE STAR PLASTIC PART

FIVE STAR PLASTIC WINDOW CLEANER:

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease & grime, wipes off fast & easy to provide a streak-free clean & clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING & HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

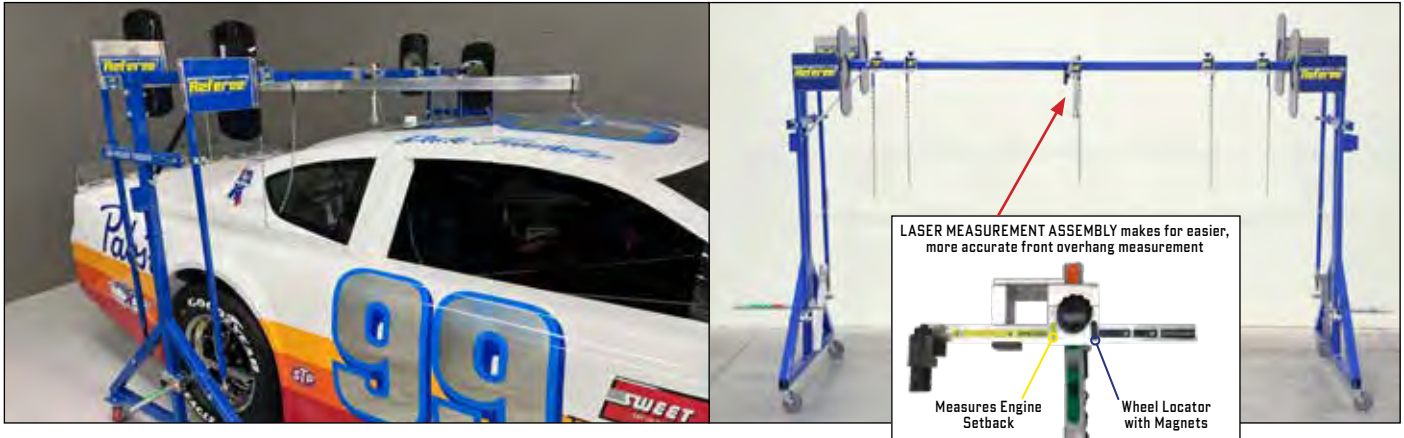

ORIGINAL ABC BODY

BODY MOUNTING KIT

MOUNT YOUR BODY FAST & EASY TO MAXIMIZE PERFORMANCE & TO PASS TECH INSPECTION!

It is the responsibility of all competitors to present a car that fits the templates within allowable tolerances and meets all dimensions as inspected by the "Referee." Be sure to download a free copy of the Official ABC Rulebook for body styles, panels, spoilers, windows, over hangs, roof height, proper placement of templates, and more!

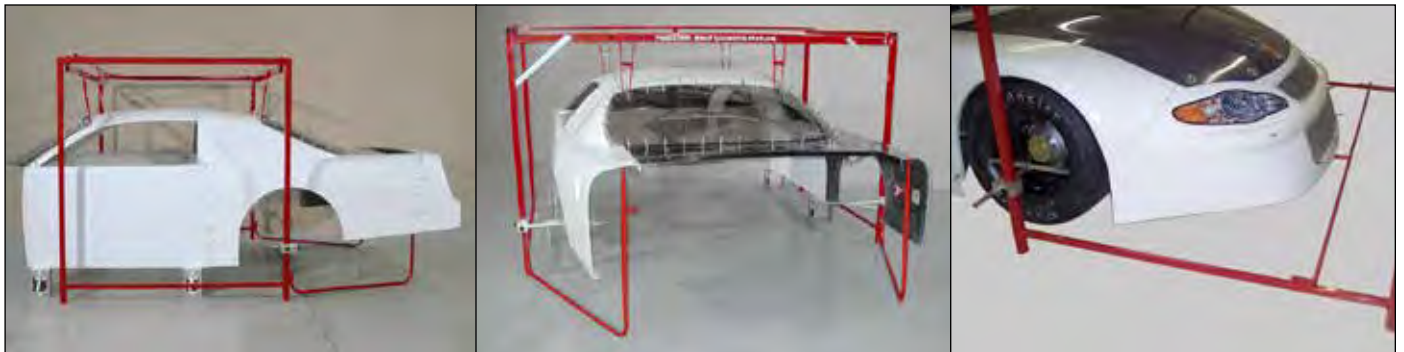

THE OFFICIAL REFEREE 2.0:

- » Used by tracks and associations throughout North America for body tech inspection
- » Measure the front overhang of the nose, tread width, roof, door, and deck height, rear overhang, wheelbase, and engine setback
- » Adjustable laser option for accurate measurements of front overhang and engine setback
- » Magnetic, tinted polycarbonate wheel plates for better attachment to wheels
- » Includes Tech Inspector's checklist
- » **NOT NECESSARY FOR MOUNTING A BODY.** A body can easily be installed within specs by using the body dimensions sheets & templates

Referee 2.0 - NOW INCLUDES THE BODY CENTERLINE DEVICE	TT-200-00	\$2,245
Wheel Locator, with magnets (SET OF 4) (SOLD SEPARATELY)	TT-200-WL	\$98
Laser Measurement Assembly (SOLD SEPARATELY)	TT-200-LB	\$190
Body Centerline Device (SOLD SEPARATELY)	TT-200-BC	\$195

VISIT OUR YOUTUBE PAGE FOR A TECH VIDEO DEMONSTRATING USE OF THE OFFICIAL REFEREE 2.0

ROOF LOCATING FIXTURE:

- » THE FAST & EASY WAY TO MOUNT YOUR COMPLETE BODY WITHOUT THE CHASSIS UNDERNEATH
- » This time-saving device has adjustable quarter panel arms and makes locating the roof on your chassis a simple process
- » Allows exact fit for wheel opening locations, body dimensions, and inspection templates to fit series specs
- » Pre-fits from the cowl to the bumper cover, then can be lifted easily on top of the chassis for final fit
- » Comes in a black powder-coat finish and includes roof brackets, door height blocks and assembly instructions

Roof Locating Fixture (includes Roof Brackets & Door Height Blocks)	809P	\$898
Replacement Roof Brackets	809-1P	\$71
Replacement Door Height Blocks, 7" tall	809-HB	\$38

NEXTGEN LATE MODEL STOCK

BUILT FOR CHAMPIONS & ENGINEERED FOR VICTORY

This body is the latest advancement in high-performance engineering, raising the bar for durability and aerodynamics in the late model stock division. Designed for hassle-free installation, it delivers the championship-winning edge every racer needs.

- » Commonly raced in NASCAR LMSC divisions and the CARS Tour Series
- » Exceptional aero balance validated in wind tunnel and on-track testing
- » Ultraglass Composite greenhouse with flame-retardant resin for enhanced safety
- » Consistent panel fit with flanges, locating tabs, and minimal trimming for quick installation
- » Two-piece greenhouse includes integrated cowl and deck lid filler
- » Common body with four nose options for brand identity
- » Designed to fit perimeter-style chassis
- » Available in 4 color options

FEATURED BODY ACCESSORIES

ALUMINUM HOOD HINGE KITS:

- » Hinged hoods create easy access to the engine compartment
- » Long and Short Hood Hinge Kit options include laser-cut aluminum hinge, pin, and clip assembly.
- » For more details & ordering info, see page 165

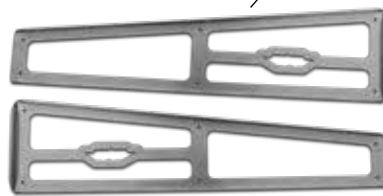

PREMIUM AVEX STYLE RIVETS:

- » Five Star Premium Rivets are known as the best quality on the market
- » Grip range up to 3/16" for 1/8" rivets & up to 1/2" for 3/16" rivets
- » Super-tight grip & won't spin out while drilling!
- » For more details & ordering info, see page 160

ALUMINUM NOSE SIDE BRACES:

- » Provides structure to an aero critical part of the car
- » Laser-cut aluminum is pre-drilled for riveting to the nose and for mounting body braces
- » For more details & ordering info, see page 164

QUARTER PANEL BODY BRACE KIT:

- » Stiffens the quarter panel to maintain correct shape in an aero sensitive area
- » Highly recommend bracing for tracks 1/2-mile and longer
- » Laser-cut aluminum braces have pre-drilled holes for brace attachment
- » For more details & ordering info, see page 176

BODY DIMENSIONS

35M7

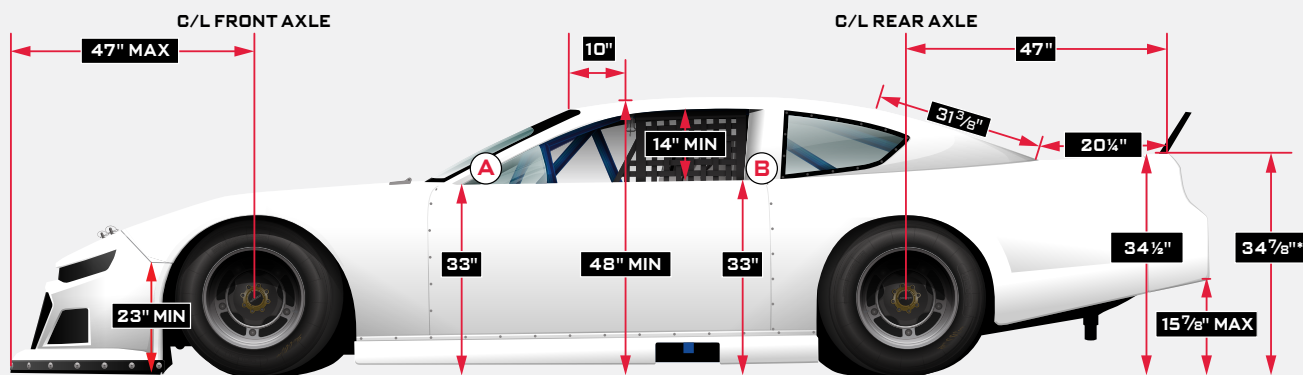

FIVE STAR BODIES ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

WIDTHS

A	B
67"	65½"

Door to Door Width: Measured at A-posts & inside edge of doors, measured through car

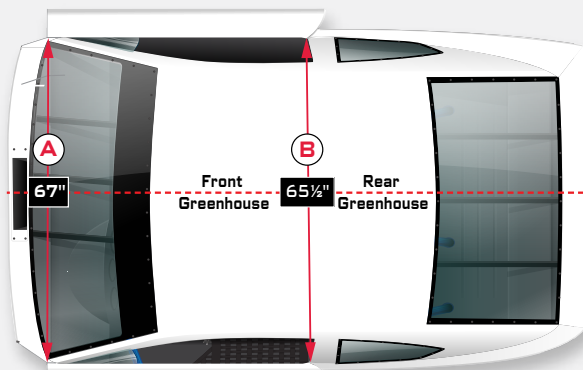

Door to Door Width: Measured at B-posts & inside edge of doors, measured through car

NOTES:

1. If the Roof Height (10" back from windshield), Door Height (rear), Quarter Panel, or Bumper Cover Height dimensions are higher than the stated minimum dimensions, all four must increase by the same amount.

2. Must fit centerline template within allowable tolerance. *Measured at the seam of bumper cover at deck lid intersection, +/- 1/4"

CHASSIS	ROOF HEIGHT	TREAD WIDTH	WHEELBASE
LMSC Perimeter	48"	Up to 64½"	Up to 106"

BODY MOUNTING KIT FIXTURES

MOUNT YOUR BODY FAST & EASY TO MAXIMIZE PERFORMANCE & HELP PASS TECH!

It is the responsibility of all competitors to present a car that fits the templates within allowable tolerances and meets all dimensions as inspected by the "Referee." Be sure to download a free copy of the Official NASCAR LMSC Rulebook for body styles, panels, spoilers, windows, over hangs, roof height, proper placement of templates, and more!

THE OFFICIAL REFEREE 2.0:

- » Used by tracks and associations throughout North America for body tech inspection
- » Measure the front overhang of the nose, tread width, roof, door, and deck height, rear overhang, wheelbase, and engine setback
- » Adjustable laser option for accurate measurements of front overhang and engine setback
- » Magnetic, tinted polycarbonate wheel plates for better attachment to wheels
- » Includes Tech Inspector's checklist
- » **NOT NECESSARY FOR MOUNTING A BODY.** A body can easily be installed within specs by using the body dimensions sheets & templates

Referee 2.0 - NOW INCLUDES THE BODY CENTERLINE DEVICE	TT-200-00	\$2,245
Wheel Locator, w/magnets (SET OF 4) (SOLD SEPARATELY)	TT-200-WL	\$98
Laser Measurement Assembly (SOLD SEPARATELY)	TT-200-LB	\$190
Body Centerline Device (SOLD SEPARATELY)	TT-200-BC	\$195

▶ VISIT OUR YOUTUBE PAGE FOR A TECH VIDEO DEMONSTRATING USE OF THE OFFICIAL REFEREE 2.0

ROOF LOCATING FIXTURE:

- » THE FAST & EASY WAY TO MOUNT YOUR COMPLETE BODY WITHOUT THE CHASSIS UNDERNEATH
- » This time-saving device has adjustable quarter panel arms and makes locating the roof on your chassis a simple process
- » Allows exact fit for wheel opening locations, body dimensions, and inspection templates to fit series specs
- » Pre-fits from the cowl to the bumper cover, then can be lifted easily on top of the chassis for final fit
- » Comes in a black powder-coat finish and includes roof brackets, door height blocks and assembly instructions

Roof Locating Fixture (INCLUDES ROOF BRACKETS & DOOR HEIGHT BLOCKS)	809P	\$898
Replacement Roof Brackets	13002-72231	\$71
Replacement Door Height Blocks, 6" tall	11002-72331	\$38

PAVEMENT MODIFIED

THE ULTIMATE IN AERODYNAMIC DESIGN

This body is equipped with an aerodynamically advanced roof featuring built-in vortex generators, engineered to optimize airflow for peak performance. In addition to its high-performance design, this body is ready to fit almost any short track modified chassis & is approved for all major modified series.

- » Legal in all major Modified series
- » Roof design is the easiest to install
- » Built-in vortex generators enhance airflow and aerodynamics
- » Rear wheel flares improve aero, add rigidity, and protect tires
- » Roof includes integrated cowl panel and separate rear window mounting flange
- » Repeatable fit ensures consistency in all replacement panels
- » Fits most short track Modified chassis
- » Panels available in 4 color options

- » Five Star Premium Rivets are known as the best quality on the market
- » Grip range up to 3/16" for 1/8" rivets & up to 1/2" for 3/16" rivets
- » Super-tight grip & won't spin out while drilling!
- » For more details & ordering info, see page 160

LOWER NOSE SCREEN:

- » Protects the radiator from debris penetration
- » Frame is laser cut from lightweight aluminum
- » Screen is high strength stainless steel (1/4" MESH IS WELDED)
- » Durable black powder-coated finish
- » Weighs only 10.32oz
- » For more details & ordering info, see page 53

CHASSIS CLAMPS:

- » Universal mount fits anywhere bracing is needed
- » Eliminate the need for welding or use of hose clamps when mounting body braces
- » Ideal for use with all Five Star's Adjustable Body Braces
- » For more details & ordering info, see page 179

OUTLAW LATE MODEL

ENGINEERED TO ACHIEVE MAXIMUM DOWNFORCE

The Outlaw Late Model Nose lives in Victory Lane! With unmatched downforce, effortless installation & our ultra-durable proprietary plastic blend, racers agree—this nose outperforms all others on the market!

OUTLAW NOSE FEATURES:

- » Aggressive aero styling delivers maximum downforce
- » Fenders designed for maximum tire clearance
- » One-piece center can be cut for nose width adjustability
- » Height-adjustable lower fender for custom fit
- » Nose screen recess molded into the center
- » Fits flat to hood and rear fender area for seamless body lines
- » Built-in 3 ½" wide valance
- » Nose and fenders available in 5 colors

OUTLAW LATE MODEL

FEATURED BODY ACCESSORIES

PLASTIC NOSE FILLER PANEL:

- » 80" long by 30" tall
- » Flat high-impact plastic sheet deflects debris and resists chipping, denting, and bending.
- » Outperforms traditional aluminum panels in every way, this panel does not dent
- » For more details & ordering info, see page 58

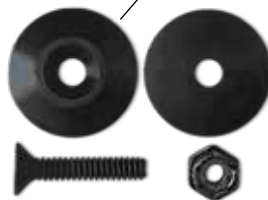

OUTLAW SPORTSMAN COMPOSITE ROOF:

- » Strong! Holds up to high speeds with minimal bracing
- » Two options: Standard Composite & Advanced Lightweight Composite made with flame retardant resin for added driver safety
- » For more details & ordering info, see page 58

LOWER NOSE SUPPORT:

- » Add another layer of support with this lightweight, durable polyethylene plastic valance support
- » This lightweight, durable plastic nose support is .352" thick and adjusts from 86" to 96" long & can be trimmed to fit
- » For more details & ordering info, see page 58

UNIVERSAL BODY MOUNTING KIT:

- » Universal fit that can be used anywhere on a race car
- » Plastic kit features Black Delrin washers that withstand repeated impact and stress
- » For more details & ordering info, see page 161

» GO TO PAGES 158-181 TO SEE ALL ACCESSORIES FOR THIS BODY

NORTH AMERICAN SPORTSMAN

THE SUPERIOR DESIGN FOR SPORTSMAN RACING

This is the spec body for the NASCAR Mexico Series and the top choice among competitors seeking cutting-edge performance. This body is a hassle free solution for any racer, setting a new standard for durability & aerodynamics in the sportsman division.

- » Universally designed for most Sportsman divisions across North America
- » Consistent, repeatable fit for quick installation and replacement
- » Two-piece greenhouse with built-in cowl and deck lid filler
- » Common body with three nose options for brand identity
- » Panels include mounting flanges and locating tabs for accuracy
- » Designed for metric-style chassis
- » Minimal trimming required
- » Available in 2 color options

HIGH-PERFORMANCE MATERIAL OPTIONS

PREPREG CARBON FIBER:

State-of-the-art aerospace composite engineered for ultimate performance. Ultra-lightweight with a flawless Class A cosmetic carbon finish that delivers unmatched strength, stiffness, and visual precision. The finest carbon weave you will find, better than anything on the market. Kevlar/Aramid is used throughout. Every panel features built-in flame retardant materials for added safety. Autoclave cured for perfection in every fiber.

CUP CARBON COMPOSITE BLEND:

The same advanced blend used on the NextGen Cup Car. Super durable, lightweight, and budget friendly. High-strength, finished gloss color construction built for professional-level performance. Combines low weight with superior impact resistance to deliver lasting strength under extreme conditions. Kevlar/Aramid is used throughout. Every panel features built-in flame retardant materials for added safety.

FIBERGLASS COMPOSITE:

Not your standard fiberglass. Engineered for superior stiffness and precision fit, this advanced blend features Kevlar-reinforced mounting points for added strength where it matters most and dependable, race-ready performance. Every panel features built-in flame retardant materials for added safety.

HIGH-IMPACT THERMOFORMED PLASTIC:

The same material widely used in Dirt Late Model racing under our MD3 brand. A proprietary blend engineered for unmatched flexibility and impact resistance. Tough, lightweight, and built to take on dirt, debris, and contact season after season.

SPRINT CAR

AERODYNAMIC FEATURES & INNOVATIONS

**HIGH-IMPACT PLASTIC
WING CAPS FOR INCREASED
DOWNFORCE & AERO EFFICIENCY**

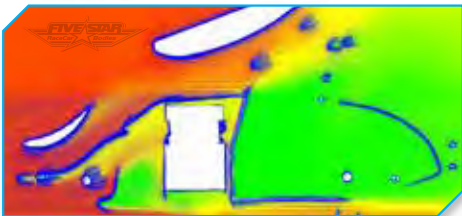

**RIGHT SIDE SMOOTHED
FOR MAX SIDE FORCE**

**REFINED SHAPE
MAINTAINS STABILITY WITHOUT
CATCHING EXCESS AIR**

**HOOD DESIGN CLEANS
UP AIR FLOW TO REAR WING**

**HOOD SHAPE OPTIMIZED FOR
UNDER-HOOD AIRFLOW AND
MAXIMUM HORSEPOWER**

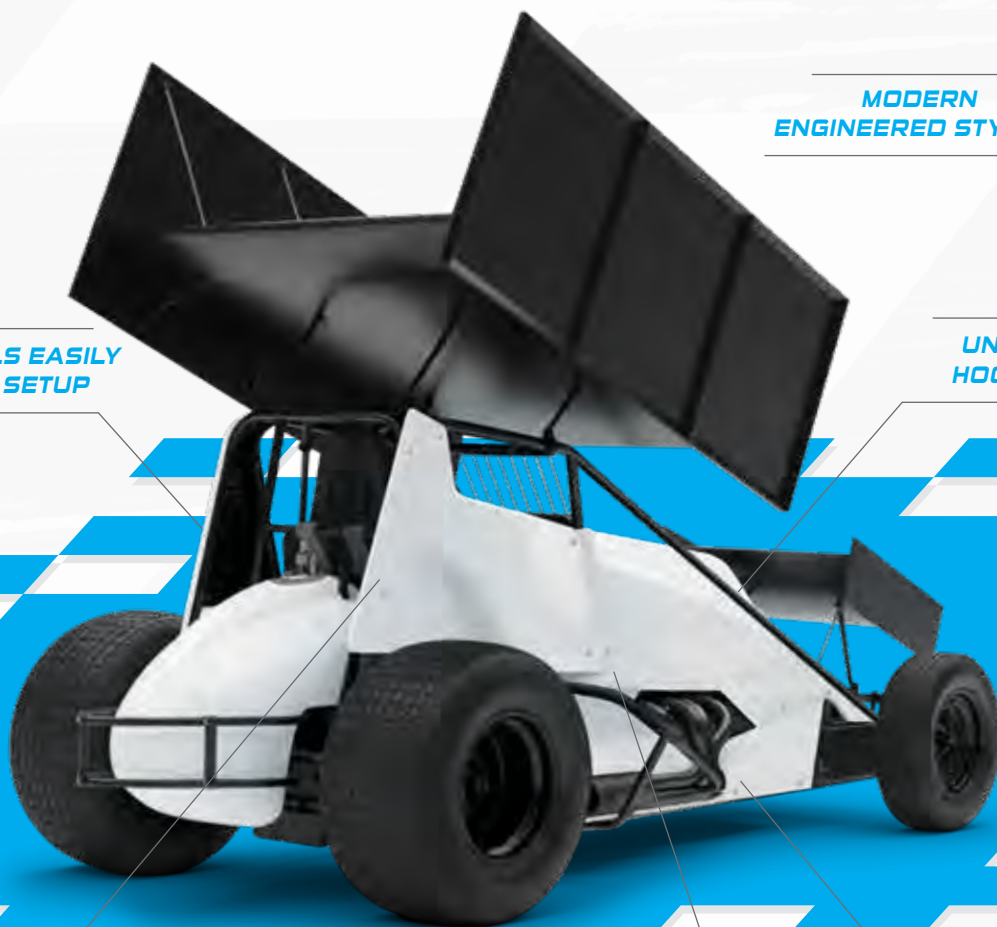

Our engineering team used advanced CFD (computational fluid dynamics) analysis to model airflow & optimize aerodynamics before a single panel was molded.

These findings were validated on track using high-tech sensors, data collection equipment along with a clear polycarbonate hood which allowed our engineers to see air movement in real time & turn data into proven results.

DIRT LATE MODEL

THE #1 BODY CHOICE FOR TOP DIRT RACERS

***All panels are designed with great style, provide maximum downforce,
& are proven to be the most durable, cost-effective
products on the market.***

- » Molded plastic panels deliver unmatched flexibility and durability
- » Advanced lightweight composite panels rival carbon fiber in strength and weight
- » Premium plastic materials available exclusively in MD3 products
- » MD3 Adhesion Promoter ensures maximum vinyl adhesion
- » See color options for all body panels & components in ordering section

BODY PANELS & COMPONENTS

FIVE STAR BODY PANELS ARE DESIGNED TO MAINTAIN PRECISE FIT WITH OPTIMIZED AERODYNAMICS!

PLASTIC SCUFF PLATES;

NEW!

- » Lightweight & Durable Plastic
- » Choose from 3 kit sizes:
 - 4-pack with 16 rivets
 - 12-pack with 48 rivets
 - 40-pack with 160 rivets
- » Kits include scuff plates with 1/2" center hole, unpainted 1/8" rivets, and 1/8" backup washers
- » Raised center makes installing and removing hood pin clips quick & easy
- » Recessed rivet holes ensure a clean, professional finish
- » Available in 5 colors **-W -B -CB -G -R**

4 pack	30001-34951-X	\$10
12 pack	30002-34951-X	\$18
40 pack	30003-34951-x	\$42

**OVERSIZED 80" X 30" PANEL IS TRIM-TO-FIT
FOR YOUR CUSTOM APPLICATION**

PLASTIC NOSE FILLER PANEL:

- » Mounts between the nose, hood and fenders
- » Flat high-impact plastic sheet deflects debris and resists chipping, denting, bending
- » Outperforms traditional aluminum panels in every way!
- » Flame retardant material with high heat distortion temperature
- » Same weight per square foot as .040" aluminum!
- » Available in 5 colors **-W -B -CB -G -R**

Nose Filler Panel	32000-35851-x	\$128

1.	Front Overhang	Measured from long side of wheelbase center to front edge of body (splitter not included)	45.00	45.00 max
2.	Width	Over spindle	64.75	64.75
3.	Front Fascia Width	Measured across the front end at upper/outer corners of headlight recessed area	51.00	30.875
4.	Windshield Length Center	Measured from top center of windshield down to rear of hood/cowl center	20.25 min	24.50 min
5.	Overall Height	Measurement taken from the highest point of roof to rear of rocker	44.00 min	44.00
6.	Width (at B-Post)	Measurement taken 15" up from bottom of rocker, +/-0.25"	65.75	65.00
7.	Roof Length		58.625	45.25
8.	Side Window Height	Measurement taken at tallest point	12.125	14.00
9.	Door Length	Measurement taken at upper body line	56.375	53.375
10.	Rear Window Length		27.25	35.75
11.	Deck Lid Length	Measurement taken from bottom of rear window center	18.125	19.75
12.	Deck Lid Width	Measurement taken across rear of deck lid	47.75	45.50
13.	Spoiler Length	Length does not include wicker height. Minimum 0.75" height for wicker. Must be 90°	14.00	14.00
14.	Windshield Length	Measurement taken 12" inward from bottom corner of windshield. From this point, go to top of windshield, parallel to center line of body	26.25 min	28.50 min
15.	Spill Plate Height	+/-0.125"	6.00	6.00
16.	Section of Spill Plate above Spoiler	+/-0.125"	1.00	1.00
17.	Spill Plate Extension past rear of Spoiler		2.00 max	2.00 max
18.	Width in Front of Front Tire	Measurement taken at bottom of opening, +/-0.25"	62.50	62.125
19.	Width Behind Front Tire	Measurement taken 10" from front of rocker, +/-0.25"	63.625	64.25
20.	Width at Front Edge of Door	Measurement taken at widest point, +/-0.25"	65.50	65.25
21.	Width in Front of Rear Tire	Measurement taken at bottom of rocker, +/-0.25"	65.75	65.50
22.	Width Behind Rear Tire	Measurement taken at bottom of panel, widest point, +/-0.25"	61.50	60.875
23.	Width at Center of Rear Axle	+/-0.25"	66.25	67.25
24.	Rear Overhang	Measurement taken from the center of the rear axle to the center of bumper at furthest point above wheelie bar opening, +/-0.25"	48.25	49.25
25.	Length Left Hand Side	Measurement taken from rear of rocker to front edge of front wheel opening, +/-0.25"	100.50	102.125
26.	Length Right Hand Side	Measurement taken from rear of rocker to front edge of front wheel opening, +/-0.25"	99.125	100.875
27.	Wheelbase – Max		105.00	105.00
28.	Wheelbase – Min		104.00	104.00
29.	B-Post to Centerline of rear axle	+/-0.25"	21.50	22.00
30.	Splitter Length	Amount of 2.375" Total length front splitter mounted in front of body (see NHRA rulebook for more info)	0.375	0.375
31.	Length of Spill Plate		26.00 max	26.00 max
32.	B-Post Location	Measurement taken from bottom of rocker	15.00	15.00

RACING WINDOWS

THE #1 WINDOWS IN MOTORSPORTS

***Explore the widest variety of racing windows in the industry.
The list of options is endless! If you don't find what you are looking for,
see our custom window section and build your own.***

» **OPTICAL GRADE MATERIALS:**

Our exclusive grade of polycarbonate material is better than glass, developed exclusively for & only available at Five Star

» **EXCELLENT HARD-COATING:**

Our multiple coating types greatly enhance durability with abrasion & chemical resistance, along with UV & anti-fog protection

» **SCREEN PRINTED BLACK-OUT BORDERS:**

Our borders use a scratch resistant, non-flaking permanent ink for a clean & professional look, saving you hours of work

» **CNC TRIMMED FOR EASY INSTALLATION:**

Our windows are CNC cut to size with smooth, beveled edges & pre-drilled holes for a consistent, perfect fit

RACING WINDOWS

FEATURES & OPTIONS

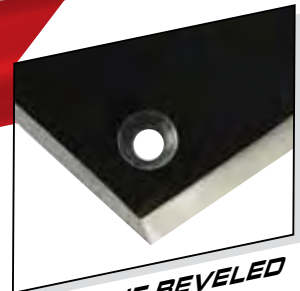

**BLACK-OUT
BORDER**

**DRILLED &
COUNTERSUNK**

**MULTIPLE
THICKNESSES**

**MACHINE BEVELED
ALONG EDGES**

MATERIAL:

- » Two Monolithic Polycarbonate options & thickness:
 - » Clear - 100% Light Transmission
 - » Tinted - 18% Light Transmission
- » 0.093" • 1/8" (0.118") • 3/16" (0.177") • 1/4" (0.236")
- » Five Star SafeGuard Laminated Polycarbonate
- » Thickness: 0.265"

COATED OR UNCOATED:

- » Mar-Resistant coated or uncoated (economy)
- » Coated windows last longer and save you money over time
- » Uncoated polycarbonate is cheaper but offers no protection against scratching, hazing, and the damaging effects of UV. Plus, cleaning an uncoated window can cause scratch marks that affect visibility.

EDGE TREATMENT:

- » Edges can be machine beveled and will fit exactly into the window frame

CUT:

- » Oversize: Typically cut 1-1/2 inches larger than the window frame; requires cutting, trimming, beveling and drilling
- » Precut to Fit: Straight-cut to fit exactly into the window frame

INSTALLATION OPTIONS:

- » Option 1: Installation holes are pre-drilled.
- » Option 2: Installation holes are pre-drilled & countersunk

BLACK-OUT BORDER:

- » Professional appearance is printed with ultra-durable, high-quality, scratch-resistant and non-flaking permanent ink.
- » Black-out borders are available on custom formed windows for higher-quantity production runs **ONLY**.

BUILD YOUR OWN CUSTOM WINDOWS

» CALL OUR SALES TEAM AT 262.877.2171 FOR YOUR CUSTOM WINDOW NEEDS!

CUSTOM WINDOW SPECIFICATIONS:

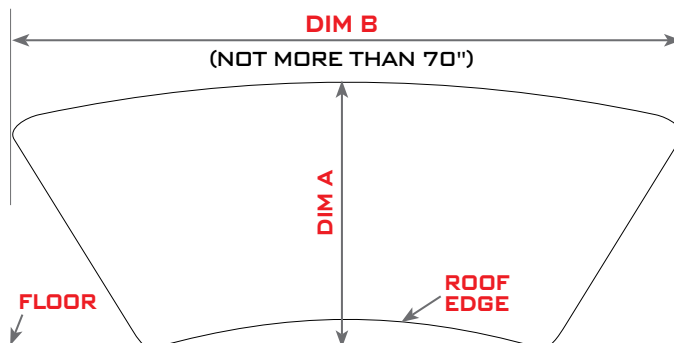

THESE TWO DIMENSIONS ARE NEEDED TO DETERMINE WHICH SHEET TO PURCHASE:

DIM A - THE HEIGHT: Place your window on end upon a level space with the roof edge down. Measure (DIM A), from the floor to the highest point

DIM B - THE WIDTH: Measure across the widest point (DIM B) to be sure that the width does not exceed 70"

» If DIM A is less than 39" use Sheet #1

» If DIM A is 39-47" use Sheet #2

IMPORTANT INFORMATION:

- » Oversized molded sheets are typically 1-1/2" larger than stock (you cut it to fit)
- » Sheets are formed, not flat. Prices on this chart include all forming costs.
- » Contact our Five Star Sales Team for complete ordering information, or to determine whether or not factory glass window is needed for tooling purposes

POLYCARBONATE FLAT SHEETS:

MAR-RESISTANT FLAT SHEETS CANNOT BE THERMOFORMED! Tint is dark gray with 18% light transmission. Custom sheet sizes are available upon request, and with a minimum order quantity.

WINDOW INSTALLATION KIT:

- » Using proper hardware provides the perfect fit & helps to increase the life of your window
- » Black oxide coated to prevent rust
- » Enough hardware to install a complete set of windows on one car
- » **Kit includes:** 120 6-32 1/2" & 16 6-32 3/4" flat head socket screws, 136 6-32 nylon locknuts, 1 long-arm hex key & 9/64" drill bit

Window Installation Kit	805	\$27
-------------------------	-----	------

IMPORTANT:
USING RIVETS APPLIES TOO MUCH PRESSURE TO YOUR WINDOW & WILL FRACTURE THE POLYCARBONATE

WINDOW INSTALLATION COUNTERSINK DRILL BIT:

- » 3/8" diameter steel bit with a 1/4" shank, used for countersinking holes for window screw installation into polycarbonate
- » Not required for precut to fit, beveled, & drilled windows

Drill Bit	805-1	\$19
-----------	-------	------

FIVE STAR PLASTIC WINDOW CLEANER:

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease, grime, and wipes off fast and easy to provide a streak-free clean and clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING AND HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

BODY MOUNTING TOOLS,

COWL INDUCTION COLD AIR BOXES:

LIGHTWEIGHT. ECONOMICAL. PATENTED FOR PEAK PERFORMANCE.

THERE ARE PLENTY OF AIR BOXES OUT THERE, BUT OURS IS ENGINEERED TO OUTPERFORM THEM ALL.

NEW! 4 BARREL AIR BOXES:

REDESIGNED TO MAXIMIZE HORSEPOWER & PERFORMANCE

- » Universal air box for pavement late model racing
- » Shallow ramp angle engineered for optimal pressure distribution
- » All new prepreg carbon fiber option
- » Improved pressure recovery for maximum horsepower
- » 2" drop base for throttle linkage clearance
- » Lower profile design fits cleanly beneath the hood
- » Precision-fit filter seat for smoother, more efficient airflow
- » Square corners for easy installation
- » Fits filters as tall as 4"
- » Aero simulated using the latest CFD software
- » This will be the new standard air box

**PREPREG OPTION
WEIGHS UP TO 1 LB LESS THAN
THE ADVANCED LIGHTWEIGHT
COMPOSITE OPTION**

4 BARREL
COLD AIR BOX

PATENTED FLOW DESIGN: 4 BBL UNIQUE HIGH FLOW DESIGN
A high-temp thermoplastic ring is laminated into the air box form-fits to the carburetor, reducing turbulent air for smoother, faster airflow.

OLD STYLE 4 BARREL AIR BOXES:

- » Feature a patented machined aluminum adapter ring
- » Available in 0° & 3° to ensure a proper, level fit
- » 3° Air box is commonly used for short track late models
- » This will be available until the end of the 2026 season

4 BARREL
COLD AIR BOX

OLD STYLE 2 BARREL OFFSET AIR BOX:

- » Designed to allow the element to be flat across the back for engine setback & clearance in the cowl
- » Fits a standard 3-1/2" x 14" filter element
- » This will be available until the end of the 2026 season

2 BARREL
COLD AIR BOX

FLOW BENCH TESTED FOR PEAK AIRFLOW

- » Advanced Lightweight Composite & Prepreg Carbon Fiber Options
- » Fits a standard 14" filter element
- » How to determine air box angle option:
 - » Set car at proper ride height
 - » Place angle finder on carburetor to determine which air box option fits best

QUARTER PANEL BODY BRACE KIT:

- » Stiffens the quarter panel to maintain correct shape in an aero sensitive area
- » Highly recommend bracing for tracks 1/2-mile & longer
- » Laser-cut aluminum braces have pre-drilled holes for brace attachment
- » **Kit includes: 2 braces that mount approximately 6" back from the wheel opening & 2" up from the bottom ledge**

Brace Kit, 2-Piece	11002-75433	\$39
--------------------	-------------	------

BRACING & ACCESSORIES

ADJUSTABLE BODY BRACES:

- » Used for spoiler & roof supports & anywhere on your car to fit templates & meet other critical dimensions
- » Easy installation with ends shaped for included screw kit or 2 rivets
- » Adjustable from 8" to 10-1/2" & features durable anodized black finish & zinc-plated hardware
- » Add extra support without adding excess weight! Package of 2 weighs only 1/2 lb
- » Can also be attached to Five Star's Chassis Clamps for quick & easy adjustable bracing on your chassis

Body Braces, 2 pack

EASY INSTALLATION
WITH ENDS DESIGNED FOR
USE WITH THE INCLUDED
SCREW KIT OR 2 RIVETS

STEEL TUBING INSTALLATION KIT:

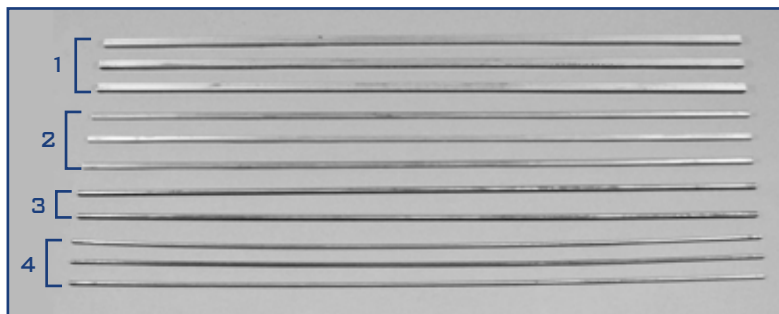

- » 55 feet of .035" hard-to-find, lightweight steel tubing for any miscellaneous needs on a race car
- » Will save at least 12 lbs over standard .065" steel tubing
- » Kit includes various shapes and sizes in 60" lengths

11-pieces: 60" lengths

819

\$84

Number	Shape	Diameter	Thickness	Length
1	(3) round	3/8"	.062"	60"
2	(3) square	1/2"	.035"	60"
3	(2) round	1/2"	.062"	60"
4	(3) square	3/4"	.049"	60"

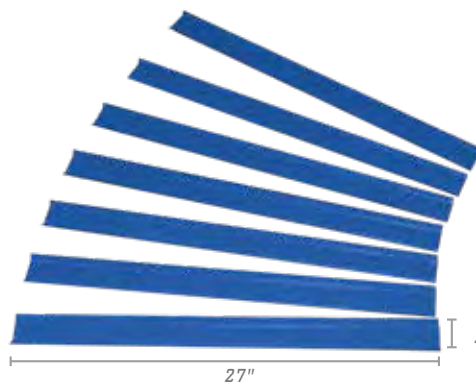

FORMED POLYCARBONATE BODY BRACES:

- » Universal brace to fit any applicable area of your car
- » Each lightweight brace weighs only 7 oz
- » Absorbs impact & allows body panels to flex upon impact & return to original position & shape
- » **Kit includes:** 7 clear polycarbonate braces & 14 1"x2" aluminum mounting tabs

Polycarbonate Braces

SURFACE PREP

FOR PLASTIC

MD3 ADHESION PROMOTER
FAST DRYING
& NON-SANDING

MD3 ADHESION PROMOTER:

- » Specifically engineered adhesion promoter assures proper paint bonding to our special plastic
- » Other automotive grade primers on the market may not work at all or cause severe paint flaking
- » Improves adhesion of vinyl by enhancing the bond between adhesive on the vinyl and the substrate, for a more durable, long-lasting application
- » Comes in an aerosol spray can for quick and easy application
- » A single can coats approximately 5 individual parts

MD3 Adhesion Promoter	842	\$16
-----------------------	-----	------

» A MUST USE PRODUCT BEFORE PAINTING OR APPLYING VINYL ON ANY FIVE STAR PLASTIC PART

FIVE STAR PLASTIC WINDOW CLEANER:

- » This specially formulated anti-static foaming spray contains no chemicals or abrasives that will cause damage to plastic
- » Lifts grease & grime, wipes off fast & easy to provide a streak-free clean & clear surface finish

Window Cleaner, 19oz Can	843	\$9.95
--------------------------	-----	--------

» FIVE STAR CLEANING TIPS!

- » ALWAYS AVOID USING ABRASIVE CLEANERS & CHEMICAL SOLVENTS THAT CAN EASILY CAUSE DAMAGE TO POLYCARBONATE WINDOWS
- » USE A MICROFIBER TOWEL FOR BEST, STREAK-FREE FINISH
- » TO PREVENT SCRATCHING & HAZING ON YOUR WINDOWS, NEVER SCRUB WITH BRUSHES OR ABRASIVE MATERIALS

*It takes a winning team to build winning products.
Every part we make starts with the people who make it happen.*

FIVE STAR FAMILY VALUES

DRIVE OUR BUSINESS TOWARDS SUCCESS

CARL SCHULTZ

COREY SCHULTZ

GARRETT SCHULTZ

HALEY SCHULTZ

HEIDI SCHULTZ

One of our great sources of pride at Five Star is the fact that we are a family-owned business. Our values as a family help guide our management of the business, and Carl takes great joy in knowing the company he has led to date is in good hands going forward. Each family member takes an active role in the day-to-day operations and looks forward to building on the legacy Carl has built for years to come.

*We use the values of the Schultz Family as a guiding philosophy for running the business.
These values are as follows:*

CUSTOMER FOCUS:

Cultivate Lasting Relationships Based on Trust, Reliability and Exceptional Service

EXCELLENCE:

Uphold the Highest Ethical and Professional Standards in All Our Actions

INNOVATION:

Strive for Continuous Learning and Improvement in All Aspects of Work

DEDICATION:

Fully Invest Ourselves in Our Roles, Team and Company

WINNING:

Be Leaders, Not Followers in Every Market We Serve

We are committed to these values and they are reflected in every area of our lives and how we do business. The adoption of these core values is essential to executing our strategy and ensuring a work environment that supports The Company's objectives and inspires employees to new levels of productivity, helping them achieve their professional goals. We are confident in our ability to execute on our strategies making Five Star a fun, rewarding place to work.

THE FIVE STAR ROAD TOUR is our hands-on, mobile brand experience—crisscrossing the country with one goal in mind: bringing the latest and greatest Five Star & MD3 body panels and accessories directly to the track. Led by longtime dirt racing expert Dan Robinson, the tour stops at major events, dealers, and grassroots shows to connect with racers where they race. Whether you're chasing downforce or looking for durable, race-ready innovations, we invite you to stop by and visit the van. You'll find new product displays and exclusive MD3 body panels!

Racers can see the parts up close, share their ideas with the team
and give direct feedback that shapes what we build next!

2023 & 2024 NASCAR CUP SERIES SUPPLIER OF THE YEAR
